I did mention Bad Luck really, really dislikes me as a girl, right?

I'm petrified.

I notice I get severely boyish around end of May to end of August every year. Then feminization occurs around Fall.

My sisters notice personality changes during my transitions I don't feel any different except more or less cranky lol
Came downstairs in a dress yesterday (without being forced into one) My older sister stared at me like I was possessed.

Ok, they do think I either have some psychological problem or possessed from time to time, it's pretty common.

Well, one more incident to go through.

Feminizing is happening...

A year aga,
my alder sister read my astralagical chart and
wamed me of 3 upcaming sexual harassment
events in my future and provided a time frame
far each af the events.

Naturally, I just laughed it aff. Until the end af
Dec 2014, a girl was sexually assaulted autside
my darm roam's window I went aut in the middle
af the night amang with the palice sirens gaing aff
and blue light flashing all aver the street ta check an her

First incident didn't directly implicate me. I didn't
think much until the 2nd incident May 16, 2015
Let's just say I callected a black star*, created same
depressive art, I'm nat comfartable disclasing the
event naw.

someone whenever they say "she" subsides.

Skyrocketing irritability, capricious mood swings,

Marked crankiness accompanied by urges to bash someone's face in.

The hormones go haywire everytime I mentally transition from male to female, and vice versa.
